fleet nor the pleasure-boat squadron on Great Salt lake is large enough to sup-port a galvanizer. Thus an easterner, who wrote to the new industries com-mittee of the Commercial club, was inmittee of the Commercial club, was informed by that body. The man said he was an expert and expressed his opinion that there ought to be plenty of work "galvanizing" boats on Great Sait lake. The new industries committee regretted the necessity of discouraging a prospective citizen, but the members believed that the truth was best.

The communications one was received other communications one was received.

The committee met yesterday. Among other communications one was received from the Colorado Potato Flake company of Pueblo. The concern is considering a change of location and favors a new firm name of "Utah Potato Flake company." Thus has the fame of the Utah luber attracted. The committee will urge upon the company the value and quality of Utah petatoes and will endeavor to have the factory added to Utah's industries.

15,367 VOLUMES NOW IN STATE'S LIBRARY

Utah's state library contains 15,367 volumes at present, according to the annual report of H. W. Griffith, state librarian, cubmitted to Governor William Spry yesterday. During 1813 a total of 551 new volumes were added to the H. brary by exchanges and purchases.

Under the exchange contract with other state libraries, 145 volumes of reports and thirty-six volumes of statutes were received, and 370 volumes were purchased outright. A total of \$12506.89 was spent by the library for new books and for other expenses arising during the year.

Dorman Home From Illinois.

J. E. Dorman, chief of the western dairy investigation of the United States department of agriculture, returned to Salt Lake yesterday morning from Eigin, Ill. where he spent the holidays with his family. He left yesterday afternoon for Goodins, Idaho, where today he will speak on "Co-operation With the Farmer" before the annual meeting of the Idaho State Dairymen's association and Swine Growers' association. He expects to return to Salt Lake Saturday.

Plumbing Company Robbed.

Robbers broke into the plumbing establishment of Carthey & Dumbeck at 63 West Broadway early Wednesday morning and broke open the cash register, although they found no money. Some receipts, the only things left in the register by the proprietors when the shop was closed, were found in the back alley with an eight-pound double-fack by Patrolman F. D. Huotsman, yesterday morning. No trace of the robbers has yet been found.

country.

Aside from the regular inspection work, the electric inspector looked after the degorative street lighting on the occasion of the big conventions held here, assembled three electrical pipe thawing machines and designed a motor wind for the great clock in the tower of the city and county building. By means of this motor the clock can be wound in a few minutes by one man, whereas under the old method the task occupied four nien an hour.

an hour.

An important feature of the inspector's work was an investigation to determine what degree of danger confronts the city from electrolytic action on its water pipes. He reports that while tests have shown that electrolysis exists in a slight degree conditions in this regard are much better in Salt Lake than in most large elies.

PER PETERSON HAS NOVEL MODEL PLANT

Down on the corner of Fourth South and Main streets is a little contrivance in the shape of a model of a portable saw-mill, an invention of a Salt Lake man, Per Peterson, 1494 Second East street, which is operated by hydraulic means in this case, the motive power being furnished by a hose from the adjoining building on the corner a few feet away. The apparatus is a miniature arrangement, and it attracted a great many

ment, and it attracted a great many pectators yesterday, as the inventor slaced a piece of wood in the diminutive athe and proceeded to chisel out all thinds of model posts, something like hose used.

those used.

He chaims that the invention, which will run either by steam or water, has effected the highest efficiency possible; in other words, that the mechanical end involves almost 100 per cent of the operative power, there being practically no loss. There is a little saw in connection with the model, probably not over an inch and a half in diameter, which does duty for the usual circular saw in lumber mills.

Peterson says that he is trying to gen-capital interested so that a company can be formed to put the machine on the market. He is established right over the gutter of the street, so that the water operating the "plant" will run off with-out any damage or nulsance to the sur-

L. D. S. U. STUDENTS

All students of the L. D. S. U. will be privileged this afternoon and tomorrow afternoon to learn the Harvard, a refined modification of the Tango dance, under the direct tutelage of the school's dancing faculty, consisting of Misses Helen Spencer, Comile Young, Emily Smith and Anna Nebeker, the latter being in charge of the propagands at the Deseret gymnssium, in the dance hall of the Lion house, in preparation for the junior "prom," at which this fad will be one of the principal features.

The juniors succeeded in persuading the school faculty recently to give official sanction and permission to this dancing campaign. The dance, said to be refining and cultural, the faculty finally acceded to the requests of the junior class. Hence the dancing school organized to teach the students some of the latest technicalities of the terpsichorean art, preparatory to actual operation on the floor of the Odeon hall Friday evening. January 16, at the junior "prom."
